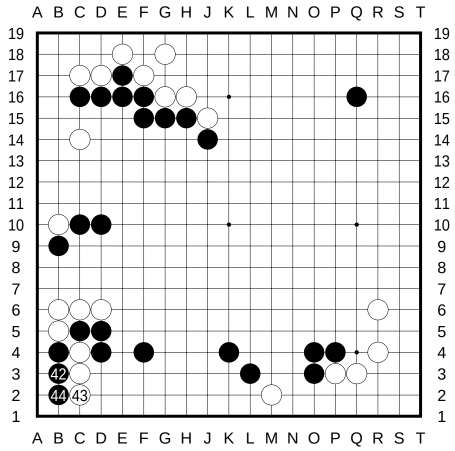
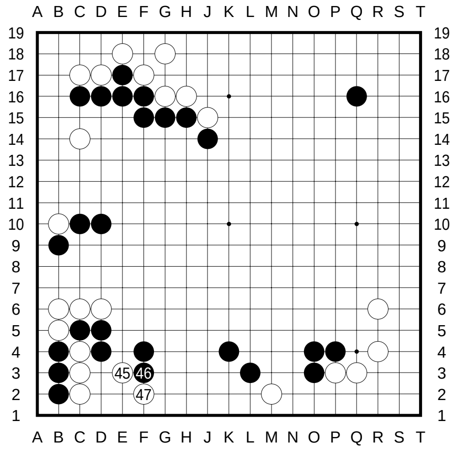
lixj(NR) if w got lower–left corner big, b is not going to have enough.
newone(???) ic, thanks
dong(6d) i am from Beijing
jpx(NR) so dong is more suitable to him.
ishida(NR) Thanks
newone(???) but it's not polite to think to long
ishida(NR) Which city do you live?



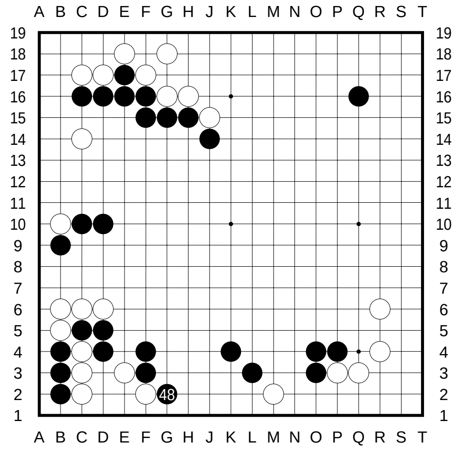
Black 42 – **Black** 44

jpx(NR) really, I though it's not polite to play thinkless moves. :–)



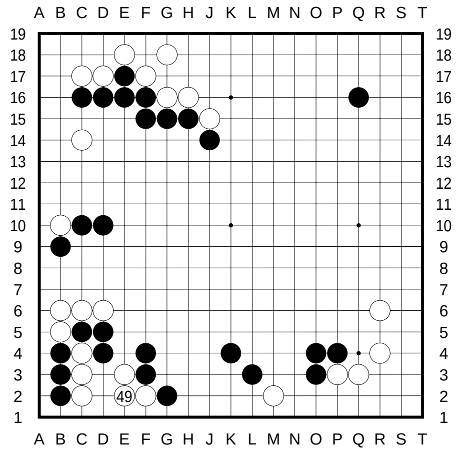
White 45 – **White** 47

newone(???) seems to me, b is giving away quickly
ishida(NR) thanks



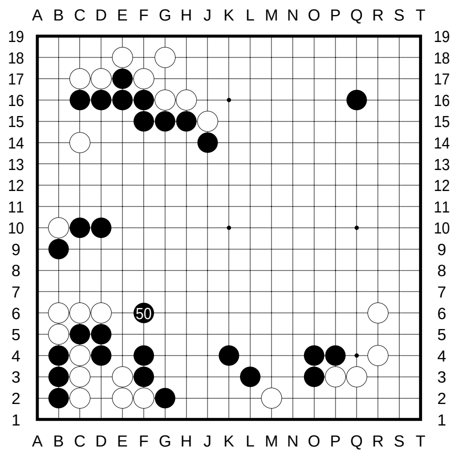
Black 48

jpx(NR) like f3 is not a polite move. should it be e2?



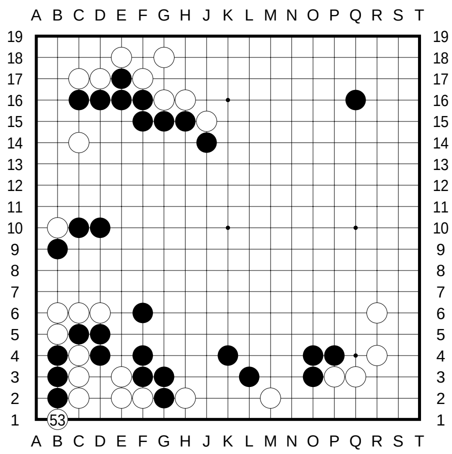
White 49

lzy(???) b still much ahead
lixj(NR) just too big to give up the corner like this.
lzy(???) b1



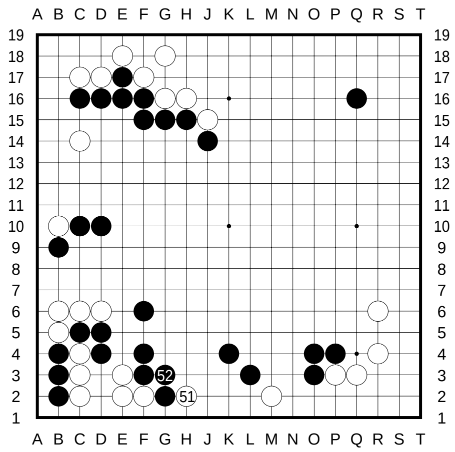
Black 50

lzy(???) the corner is not dead if b b1
newone(???) w has g3



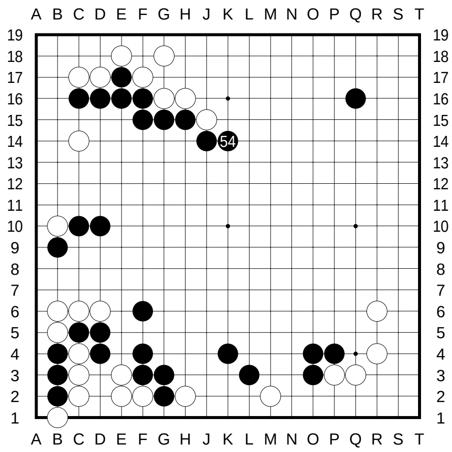
White 53

newone(???) gs works
lixj(NR) K14.



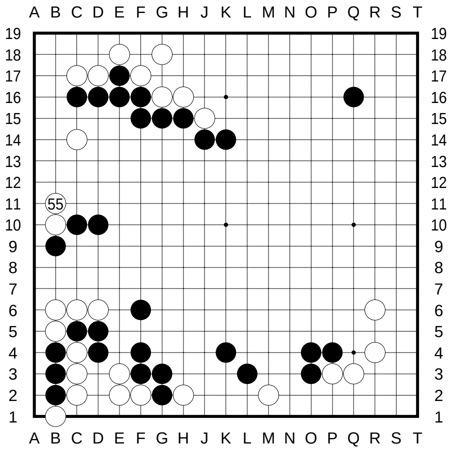
White 51 – **Black** 52

GoDuck(2d) g3 doesn't work but h2 does



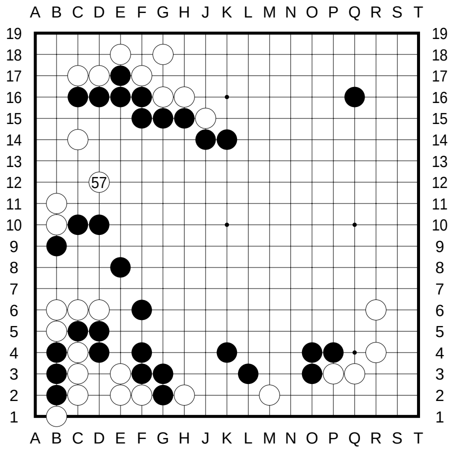
Black 54

newone(???) g3, i mean



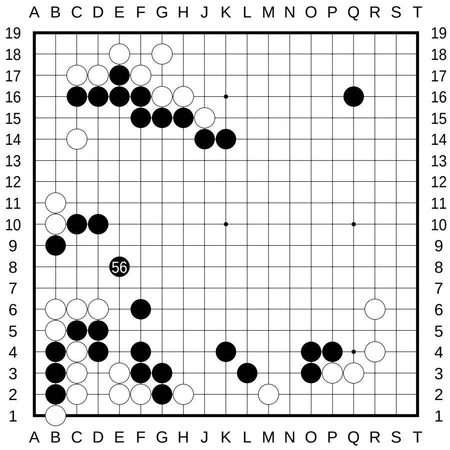
White 55

GoDuck(2d) good call lixj



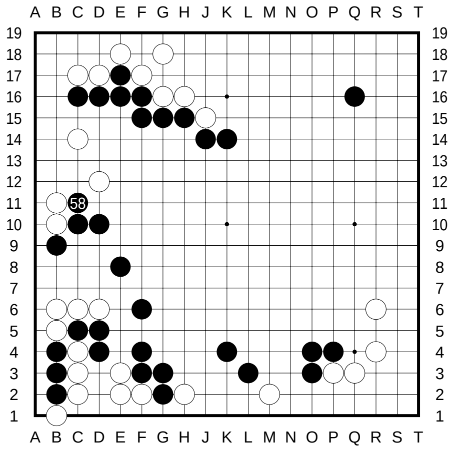
White 57

opdorp(1d) Yes bn



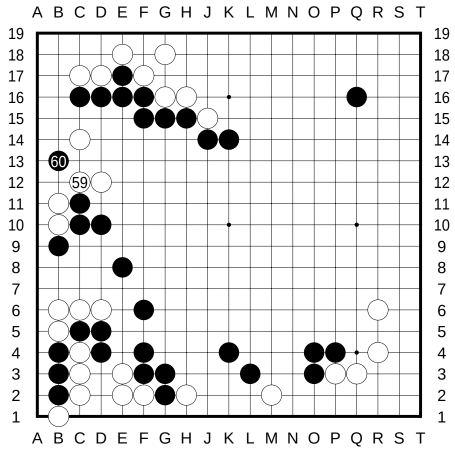
Black 56

lzy(???) b 11 better thankk14.
bn(2k) excuse me, (I just come in), isishida a pro?



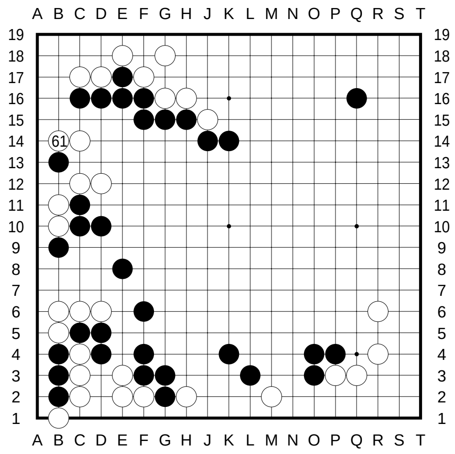
Black 58

newone(???) b13



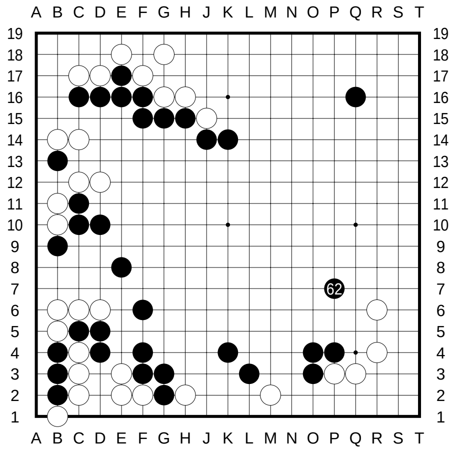
White 59 – **Black** 60

lzy(???) now black not as confortable as before.



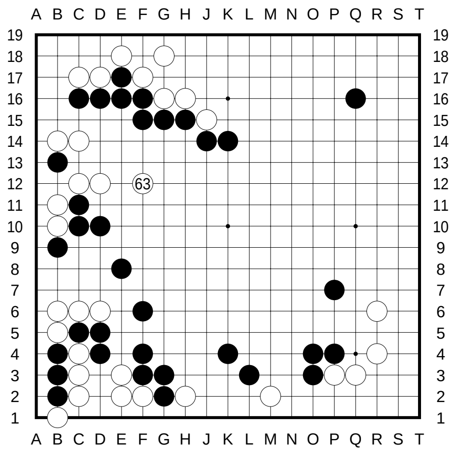
White 61

bn(2k) what is his name in Chinese?
m0184(6d) dong is losing
fei(2d) shi tian fang fu
newone(???) almost gone
GoDuck(2d) playf12 and get the middle
lzy(???) black is still much ahead, but not as much as h−3.
zilu(5d) could be yi tian
bn(2k) thanks.



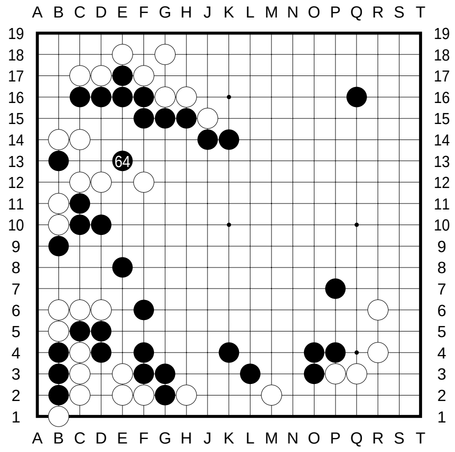
Black 62

newone(???) less than h2 now



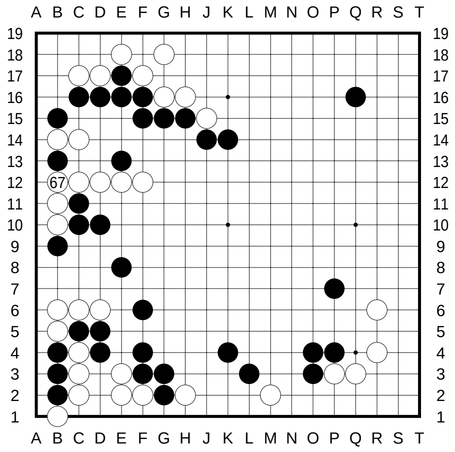
White 63

31k(NR) must be scared. Dong doesn't seem to play with confidence.
GoDuck(2d) f12 is fairly important
newone(???) can help, it's hard



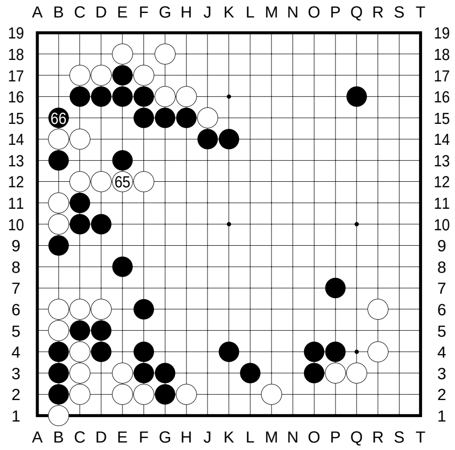
Black 64

fmc(7k) good call GoDuck.



White 67

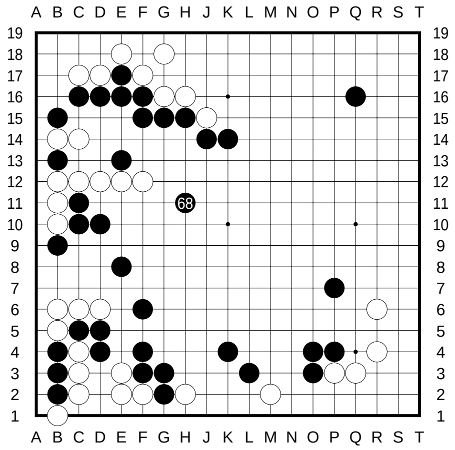
newone(???) why e13 ?



White 65 – **Black** 66

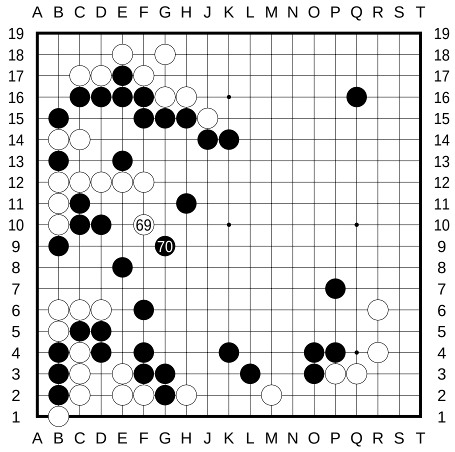
lzy(???) maybe dong plays with TOO much confidence. but less concentration!

jpx(NR) now it's hard to kill.



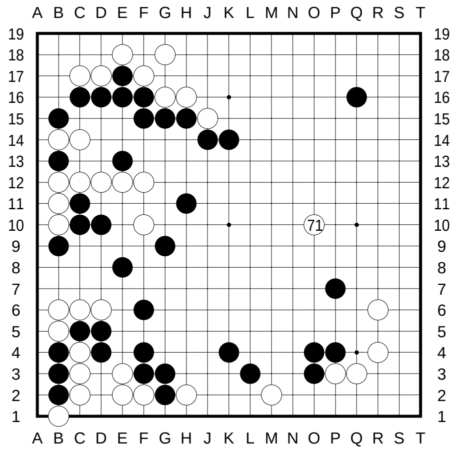
Black 68

ishida(NR) f10 is the move now



White 69 – **Black** 70

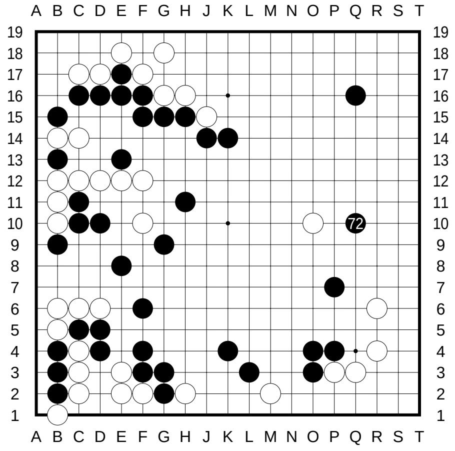
lzy(???) limit eye spaces and help
jpx(NR) ishida is kibitzing
bn(2k) is ishida telling dong where to move??
lzy(???) black has excelent global sense.



White 71

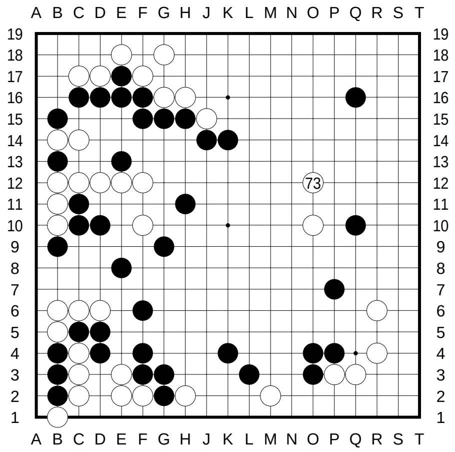
opdorp(1d) no, bn, but while playing you can kibitz, the other player doesn't see. :–)
bn(2k) but if dong has two terminals,...:–)
fmc(7k) who

jpx(NR) is w gambling?
luxun(2d) sb did that before



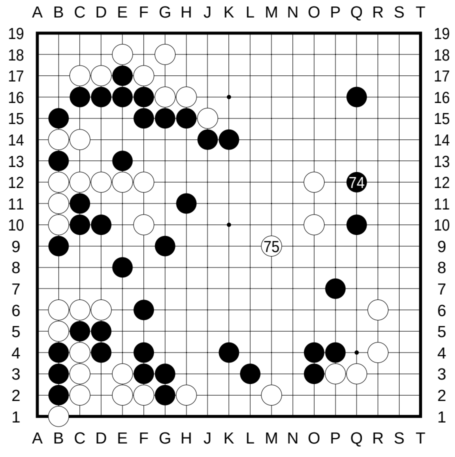
Black 72

GoDuck(2d) white O10 is difficult to attack



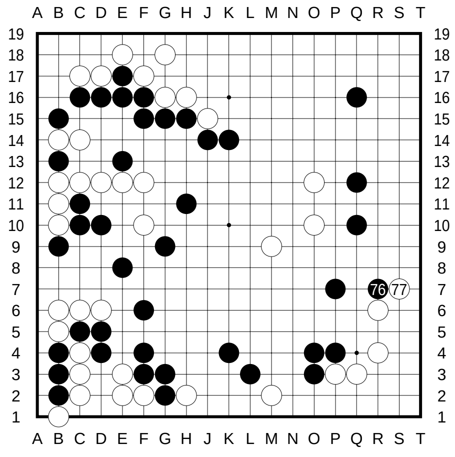
White 73

ishida(NR) probably q12 now
lzy(???) o10 is being attacked.



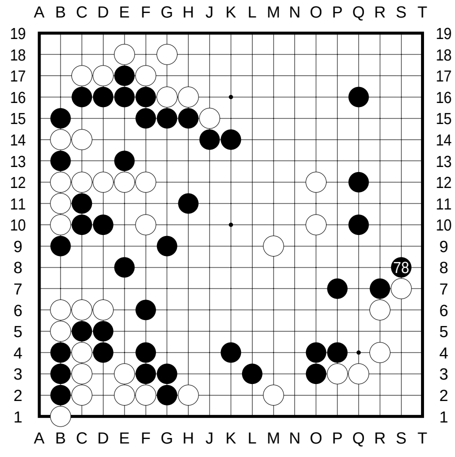
Black 74 – **White** 75

jpx(NR) o 10 is hard to attack but combine with d12 group.



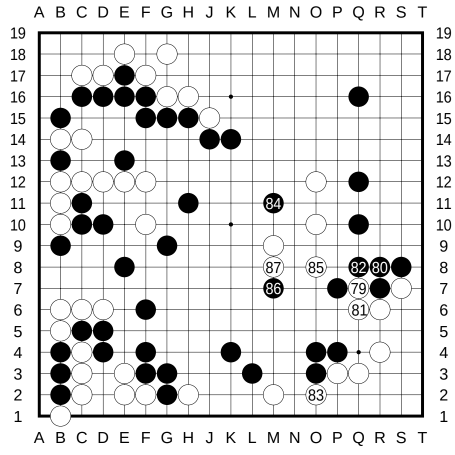
Black 76 – **White** 77

lzy(???) r7 not biggest.
newone(???) d12 grp is safe



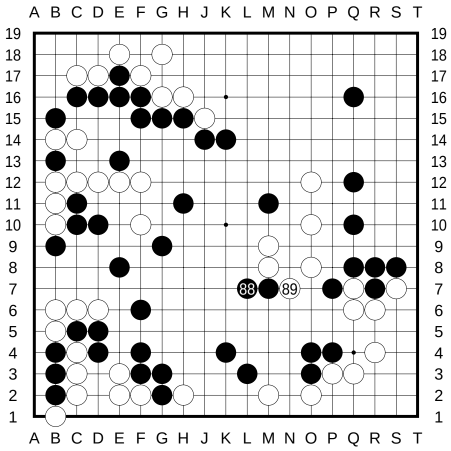
Black 78

jpx(NR) if b a14?



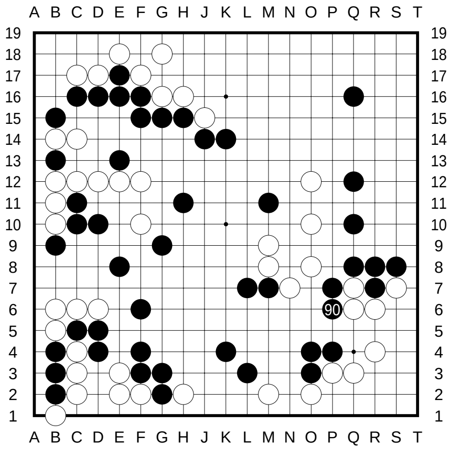
White 79 – **White** 87

youping(4d) Is ishida operating the computer himself? or is someone doing it for him?
lixj(NR) black's attack is futile. should R16 and wait for chance in the center.



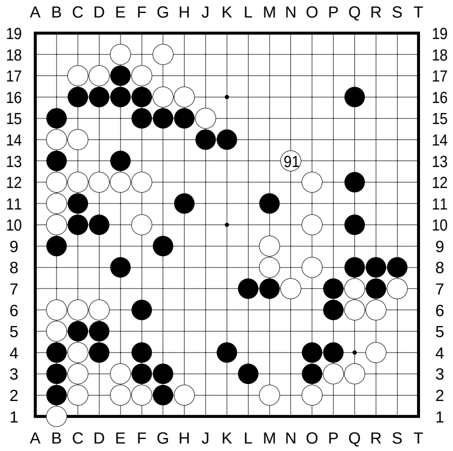
Black 88 – **White** 89

GoDuck(2d) he is from jansteen's account



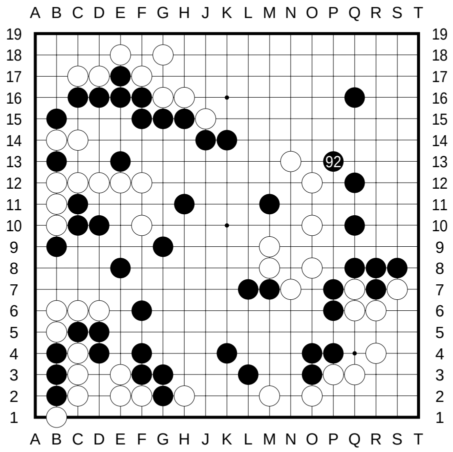
Black 90

lzy(???) the attacking really effective.



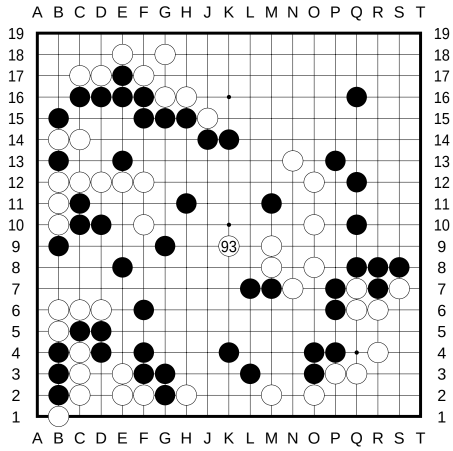
White 91

opdorp(1d) I think jansteen enters the moves, youping, because he talks dutch to me :–)



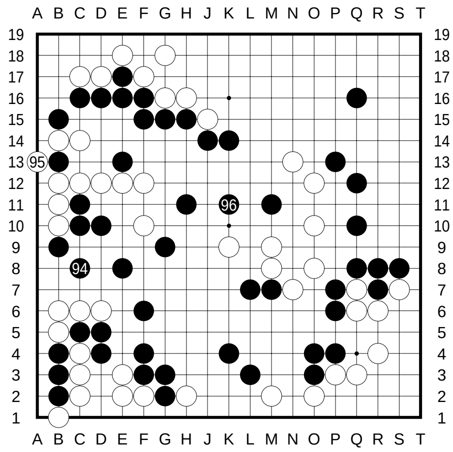
Black 92

youping(4d) opdorp, Thanks.
newone(???) too bad, have to go



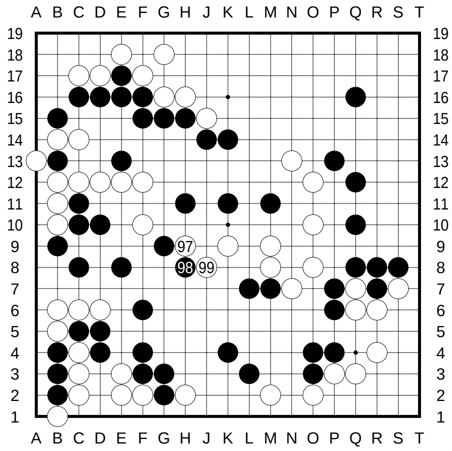
White 93

bn(2k) so the mention of f10 is also jansteen's opinion?
888(NR) after o10, no change for b!!!!
jpx(NR) if he uses mouse, ishida certainly can do it by himself.
opdorp(1d) f10 was ishidas comment i think they use a mouse, but with my (shaky) client :–)



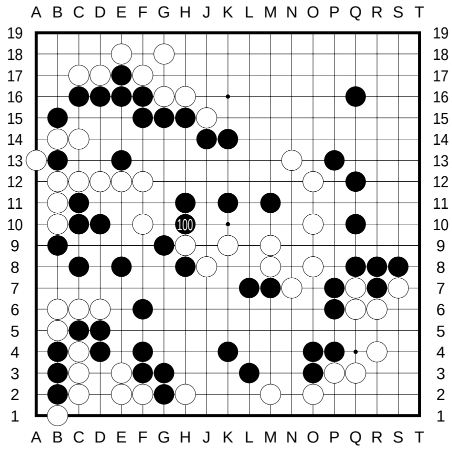
Black 94 – **Black** 96

jpx(NR) y c 8?



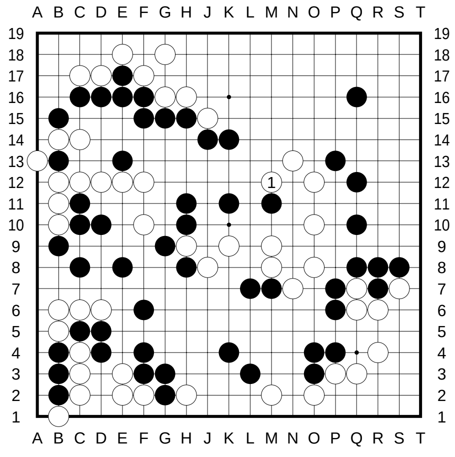
White 97 – **White** 99

opdorp(1d) what is 'y c 8'?



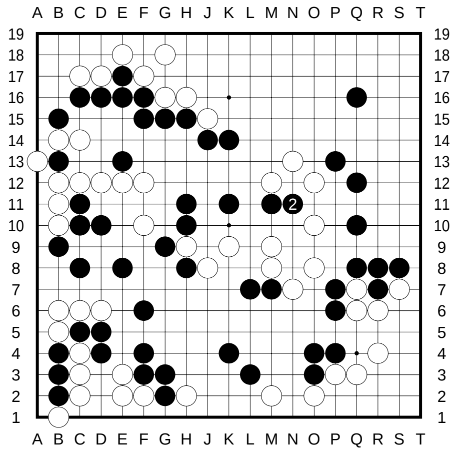
Black 100

fmc(7k) short for 'why did black played C8' :)
GoDuck(2d) why c8 I think *smile
opdorp(1d) thanks



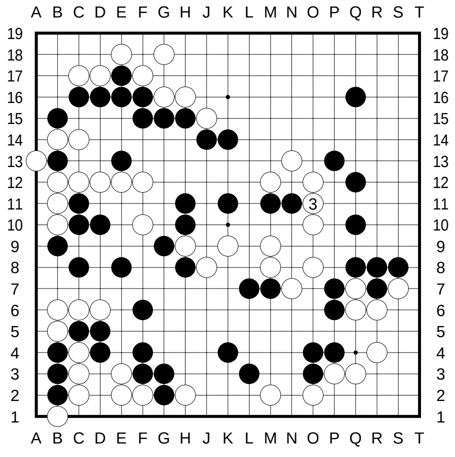
White 101

lzy(???) b would like to make himself think while attacking.



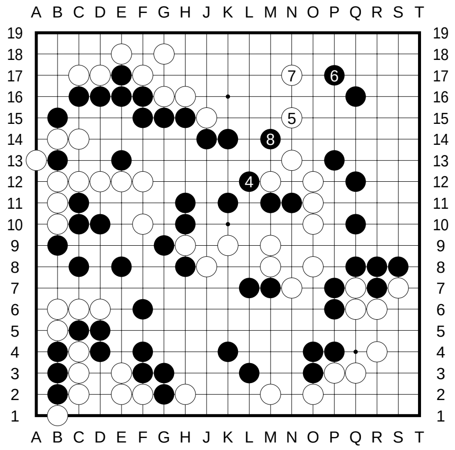
Black 102

lzy(???) sorry



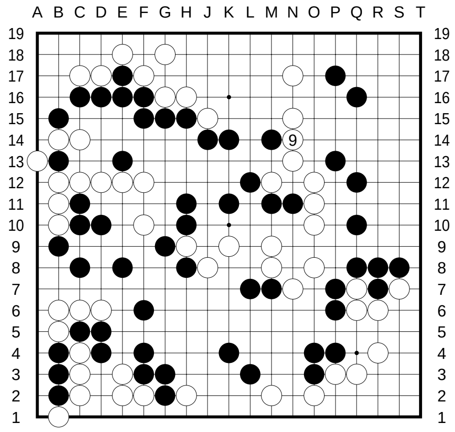
White 103

lzy(???) think=thick



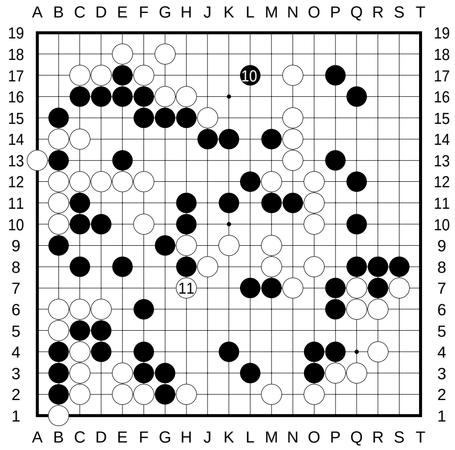
Black 104 – **Black** 108

jrm(16k) Warning: Receiving stats for an unknown person



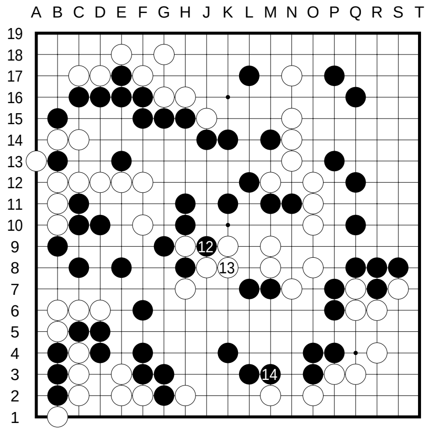
White 109

bn(2k) what? jrm?



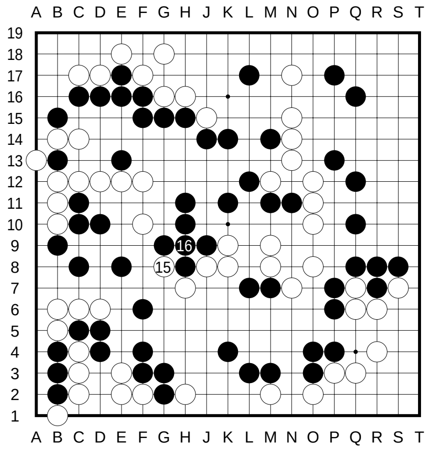
Black 110 – **White** 111

jrm(16k) sorry, interesting mouse—o.. b still holding lead?



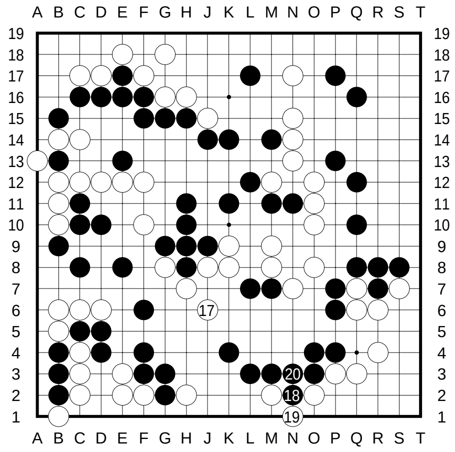
Black 112 – **Black** 114

lzy(???) ' still leading as an even game.



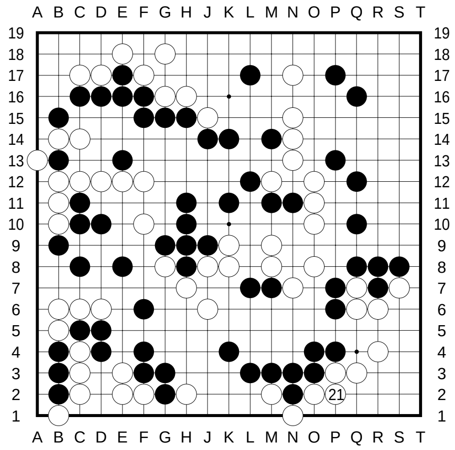
White 115 – **Black** 116

lzy(???) white has less than fourty pts now.



White 117 – **Black** 120

jrm(16k) thanks, hard to tell for sure when 20—30 ranks below players :—)



White 121

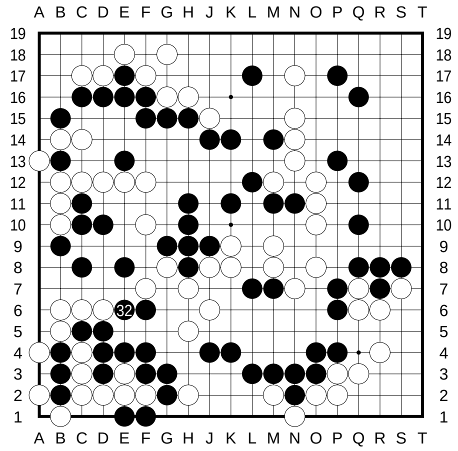
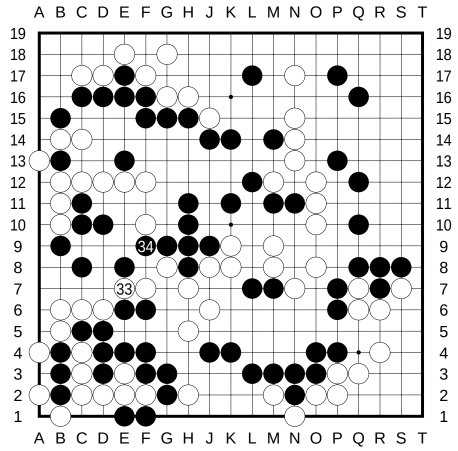
fmc(7k) trying to outhink both of them :) no luck yet :)



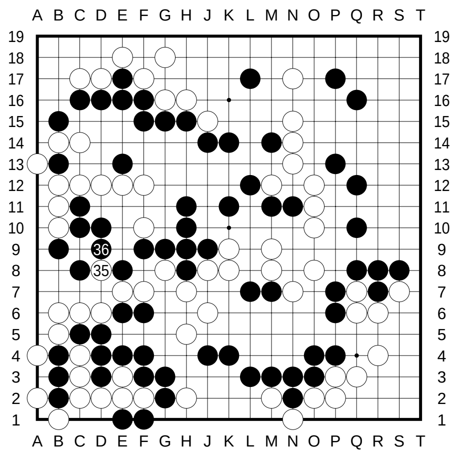
Black 132

GoDuck(2d) guess no
weihe(24k) what's ishida's chinese pronouciation?
zilu(5d) depends on whether w sente lives in the center



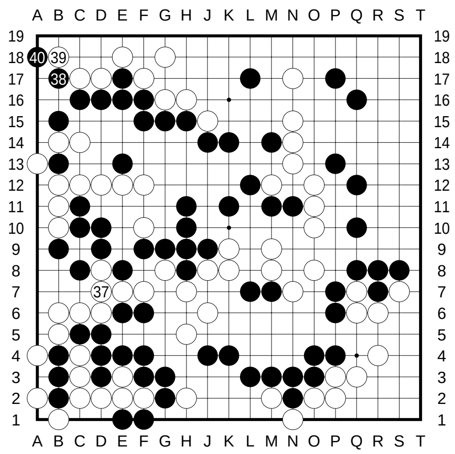
White 133 – **Black** 134

zhuge(NR) Shi2 Tian2



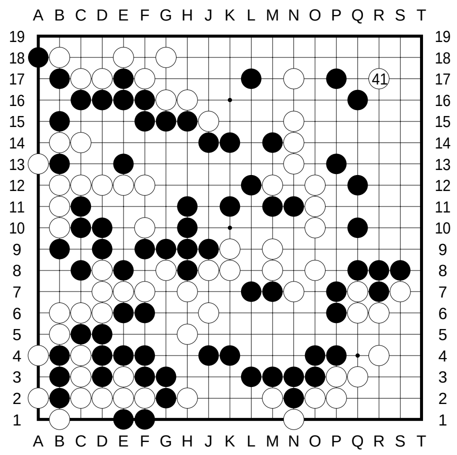
White 135 – **Black** 136

zilu(5d) yi tian



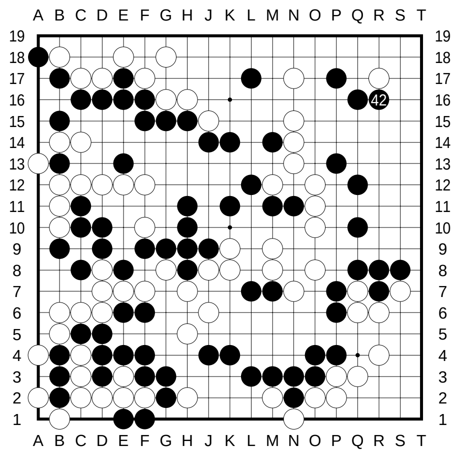
White 137 – **Black** 140

zhuge(NR) no, yi tian would be 'ida' i think.
sliao(NR) ishida is Shi2 Tian2



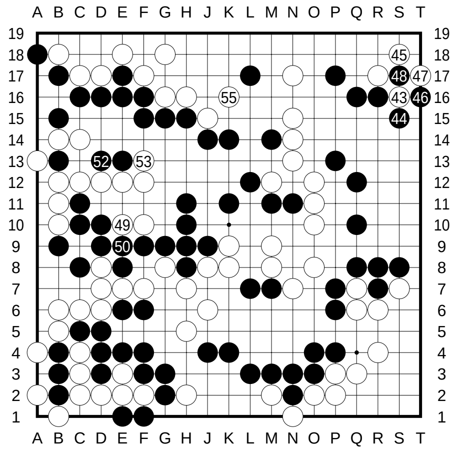
White 141

weihe(24k) u mean shi tian fang fu?
hut(3k) what's his pronouciation of his name in chinese?



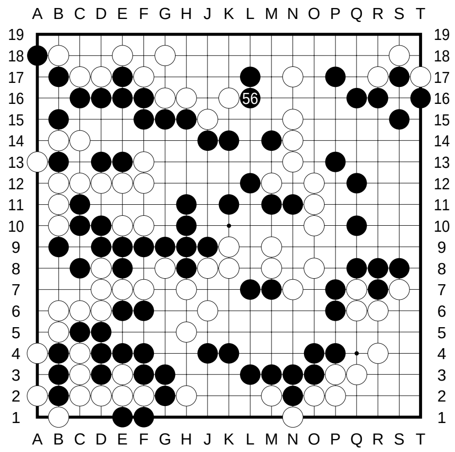
Black 142

weihe(24k) u mean shi tian fang fu?
zhuge(NR) yes.



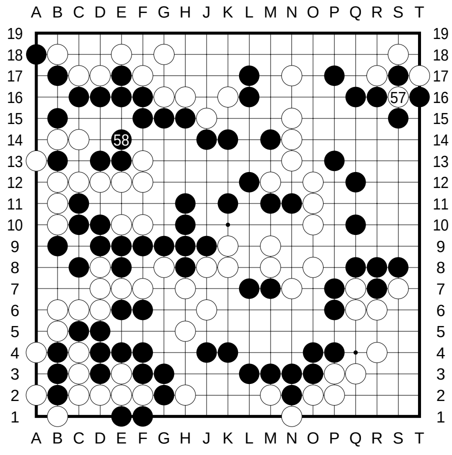
White 143 – **White** 155

zhuge(NR) ishida should set his rank to 9p now.



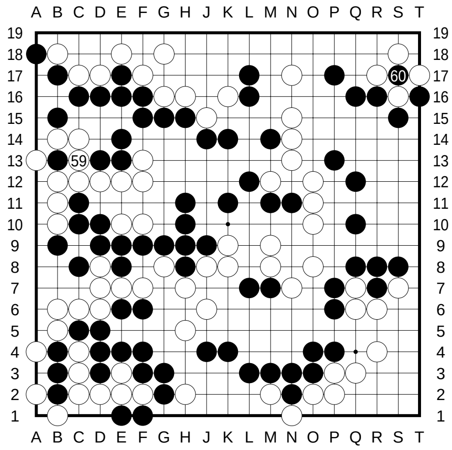
Black 156

tweet(NR) he can't



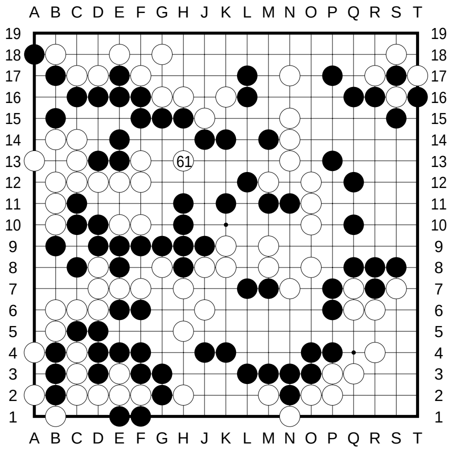
White 157 – **Black** 158

luxun(2d) why? tweet?



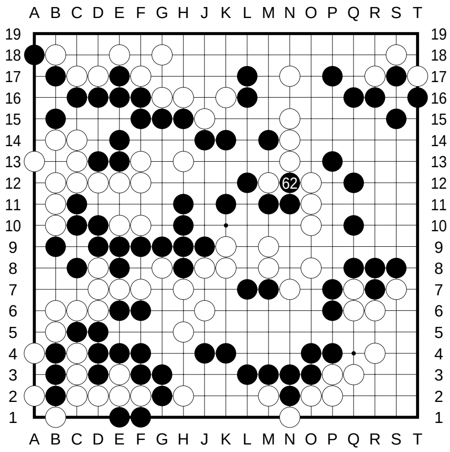
White 159 – **Black** 160

bn(2k) but you can, tweet.:–)
AshaiRey(8k) Couldn't you tweet ?



White 161

zhuge(NR) i suggest tweet to kick him out then set the rank and let him in again. :)



Black 162

jpx(NR) is this a ko?

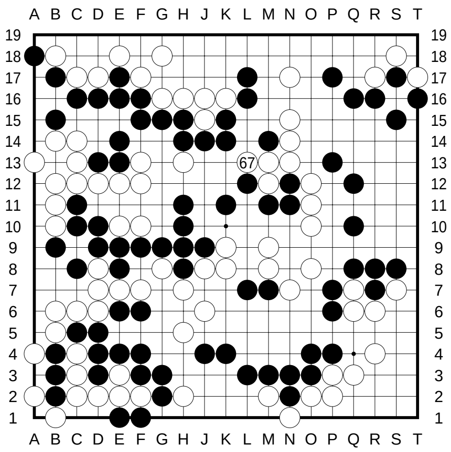
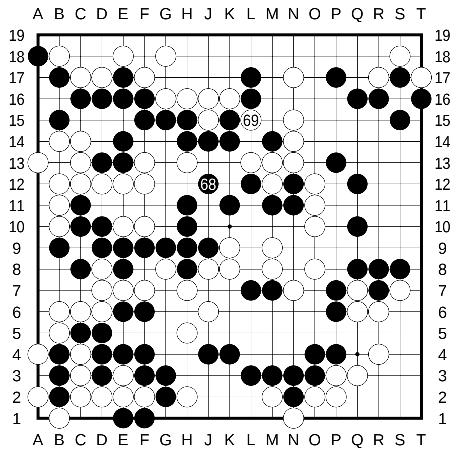
Black 166

jpx(NR) b can t18!



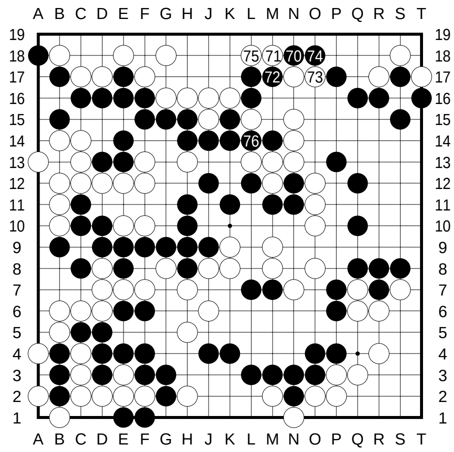
White 167

bn(2k) a cut O13?
GoDuck(2d) cut at l15



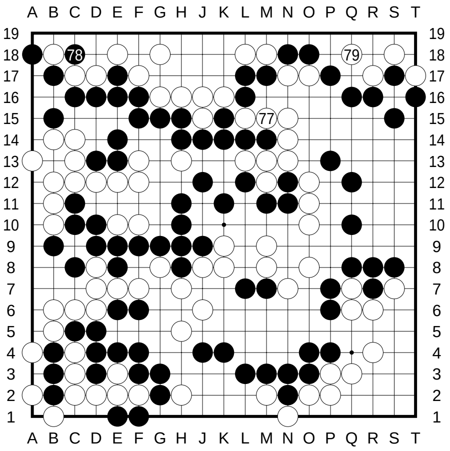
Black 168 – **White** 169

zilu(5d) b lost so much due to ko fight already
lzy(???) e6 is the worst move of black, after that white got thickness.



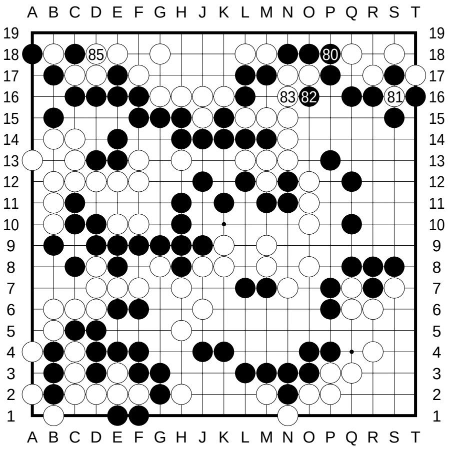
Black 170 – **Black** 176

lzy(???) black will lose .



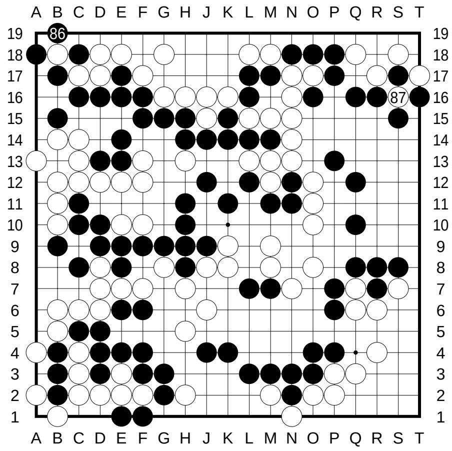
White 177 – **White** 179

zhuge(NR) it seems so.



Black 180 – **White** 185

zhuge(NR) so this is the second 9p playing on IGS?



Black 186 – **White** 187

GoDuck(2d) a10?
twh(2d) is ishida in europe now?

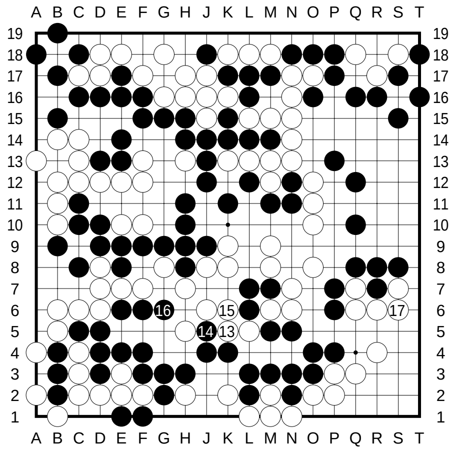
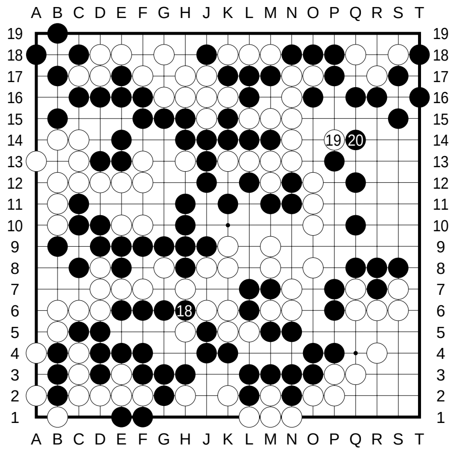
jpx(NR) what new theory?

zilu(5d) b is making eyes?



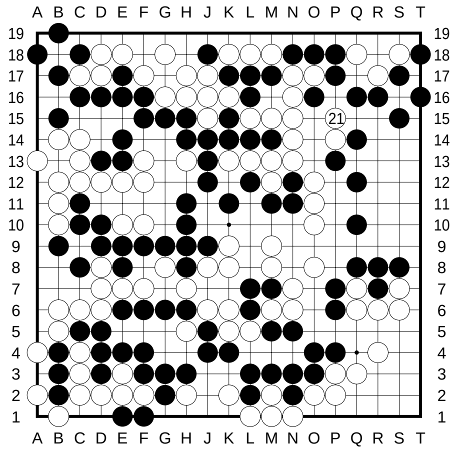
White 213 – **White** 217

jpx(NR) b has more than a dozen eyes, for God's sake.



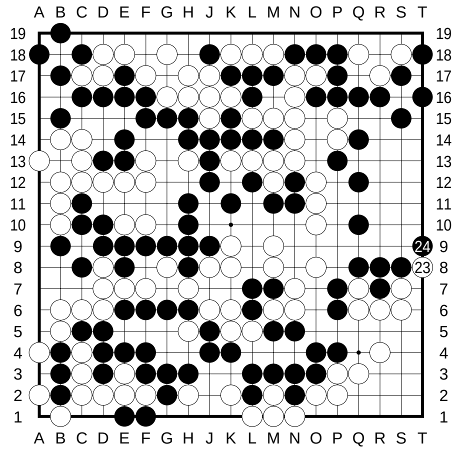
Black 218 – **Black** 220

zilu(5d) then i don't understand dong's theory



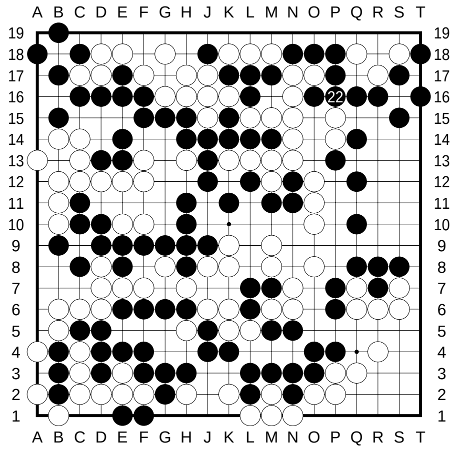
White 221

GoDuck(2d) maybe he counted



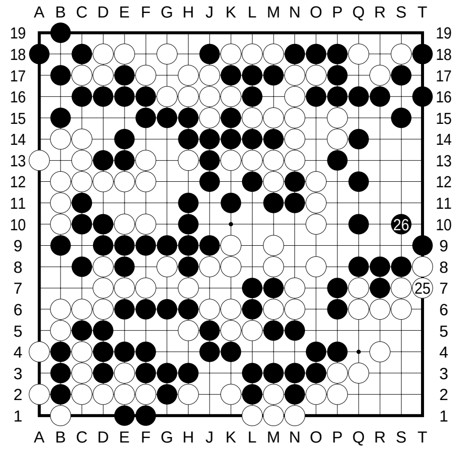
White 223 – **Black** 224

lzy(???) dong told me n5 was a typo.



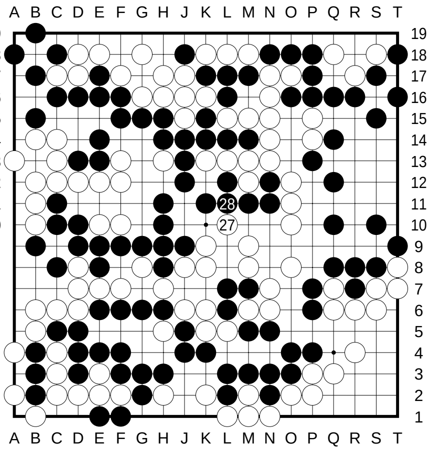
Black 222

bn(2k) we should ask dong later why N5.



White 225 – **Black** 226

opt(NR) who is ishida? i just came



White 227 – **Black** 228

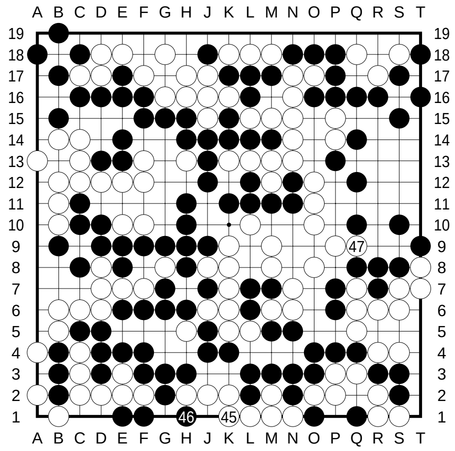
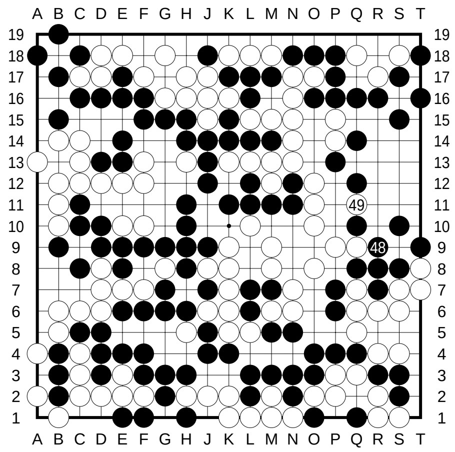
Black 244

zhuge(NR) wow i told you dong is proving a
new theory on IGS.



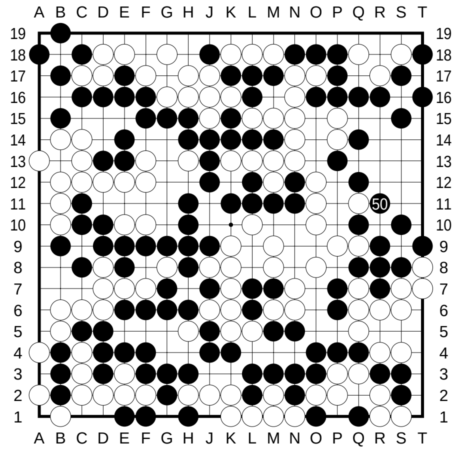
White 245 – **White** 247

zhuge(NR) if you want to ahve a really good game against a pro, suggest him to go to Europe.



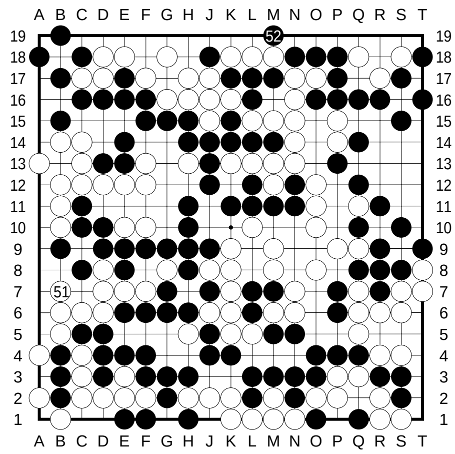
Black 248 – **White** 249

bn(2k) no, you didn't tell what it is.
zhuge(NR) especially Jansteen's house. :)



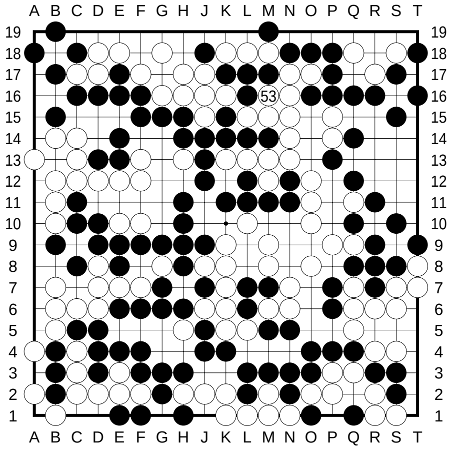
Black 250

zhuge(NR) look, newone beat GuoJuan, lzy beat nagahara; both pros were in Europe. :)



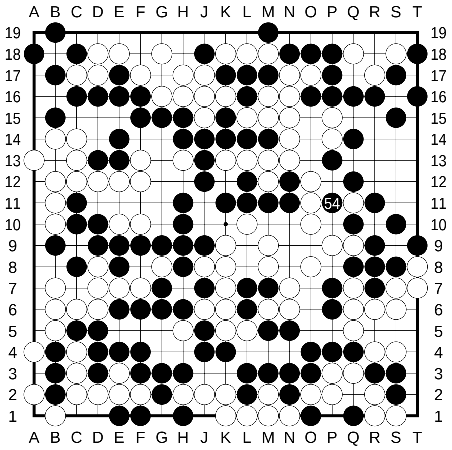
White 251 – **Black** 252

GoDuck(2d) does p11 work?



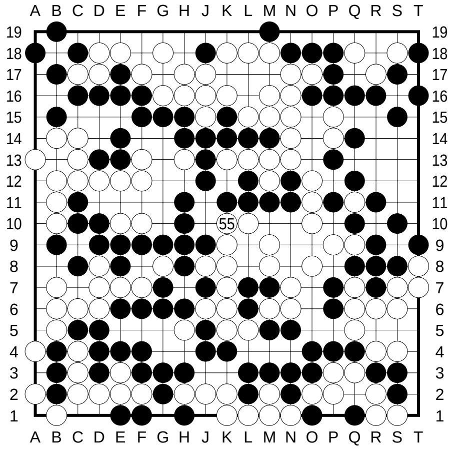
White 253

jrm(16k) hmmm zhuge has a point...



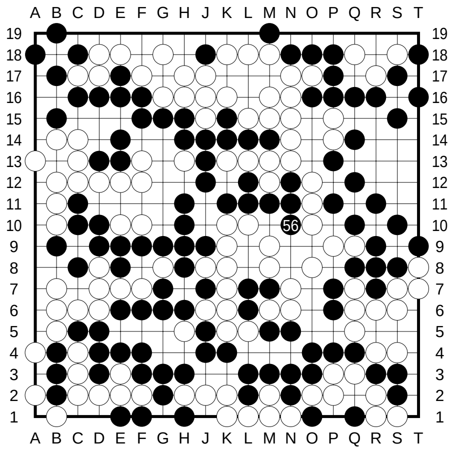
Black 254

bn(2k) but dong is losing!
zhuge(NR) but he's having a good game.
tweet(NR) zhuge is crazy.



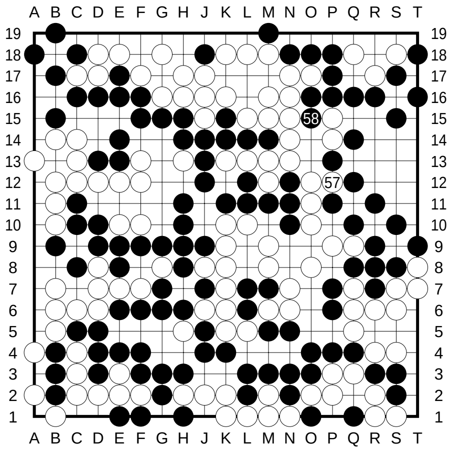
White 255

GoDuck(2d) n10
jpx(NR) common on, any theory has some exceptions.



Black 256

zhuge(NR) come on tweet... when was i *not * crazy? :)
tweet(NR) can't remember.
fmc(7k) or more precisely who isn't crazy here ?



White 257 – **Black** 258

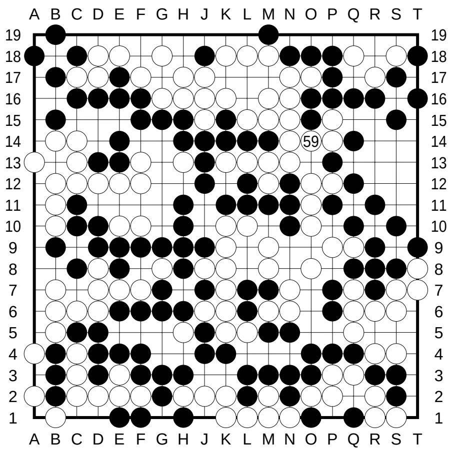
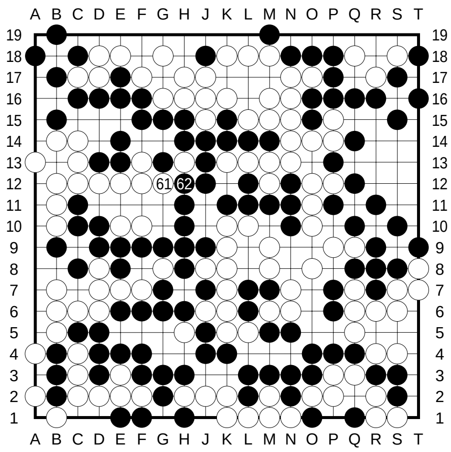
Black 260

zhuge(NR) hmmm, that was what, 1200 years ago?:)



White 259

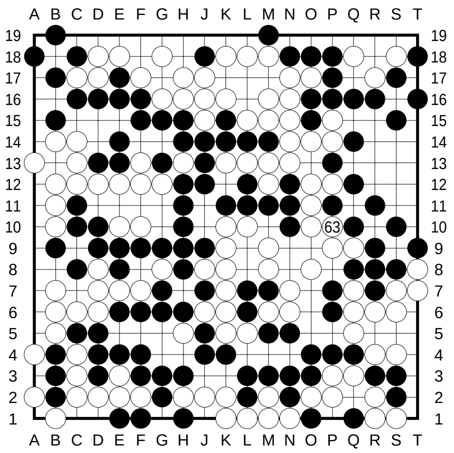
GoDuck(2d) n9



White 261 – **Black** 262

GoDuck(2d) n9 is 3pt

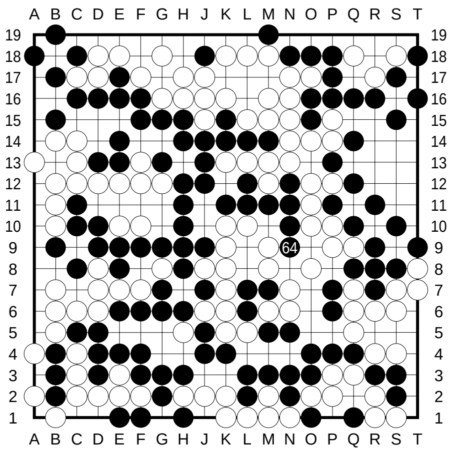
zilu(5d) why w p12?



White 263

GoDuck(2d) n9

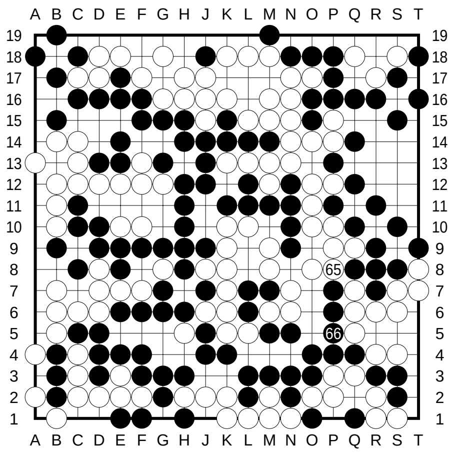
zhuge(NR) anyone counted?



Black 264

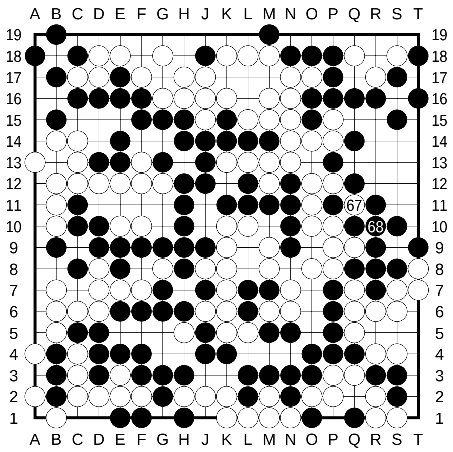
bn(2k) i counted w has 70+.

jpx(NR) b 58?



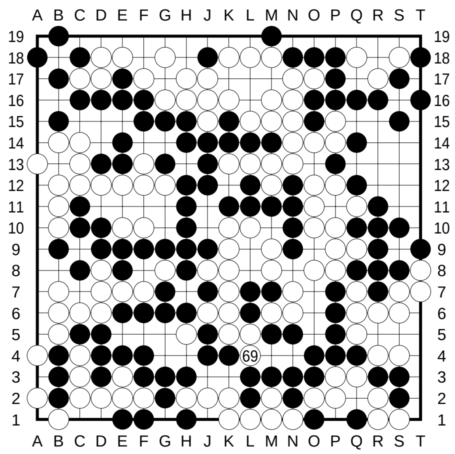
White 265 – **Black** 266

bn(2k) yeah.



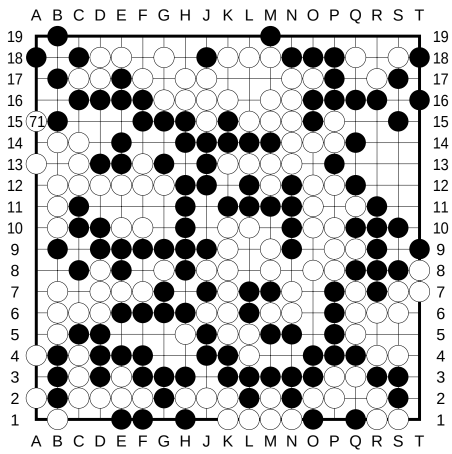
White 267 – **Black** 268

zhuge(NR) so w is clearly leading?



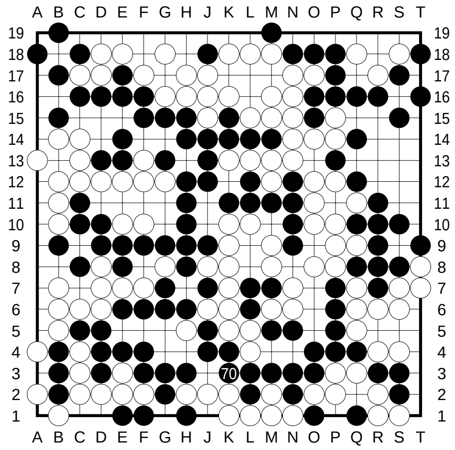
White 269

bn(2k) i think so.



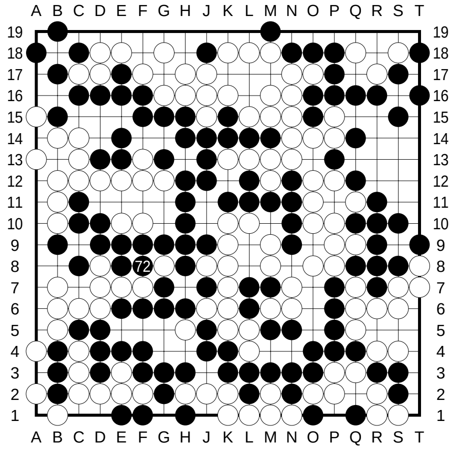
White 271

zhuge(NR) i guess dong will fight to teh last blood though.



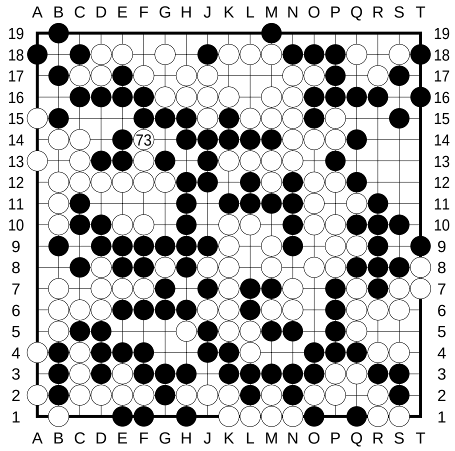
Black 270

jpx(NR) about 15 pts?
GoDuck(2d) black is 4–5pts behind
jpx(NR) anyway more than 10.



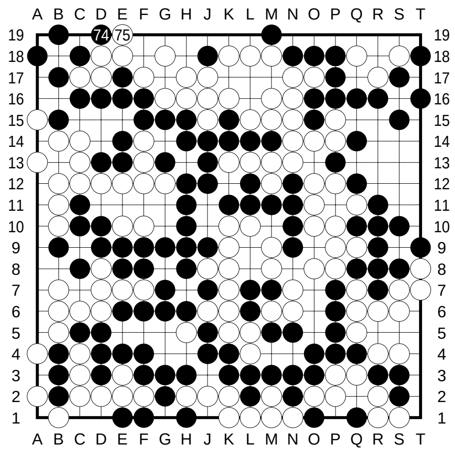
Black 272

GoDuck(2d) ?



White 273

GoDuck(2d) a16 is still big



Black 274 – **White** 275
